Note: The theatre statistics are drawn from a complete survey based on written questionnaires submitted to publicly financed theatres and orchestras regarding their business operations (venues, range of events, attendance figures, staff, financing). The figures in the time line are not always comparable, for some venues could not be used owing to construction work and/or the collected data is incomplete owing to lack of responses, especially in the earlier years.

<sup>1</sup> Excluding concert events. For concerts and attendance of independent orchestras with theatre duties see 'Concerts and attendance of publicly financed orchestras'.
